Humanities, Arts & Social Sciences (HASS) ARC Centres of Excellence Workshop

The Australian Academy of Humanities, Academy of Social Sciences in Australia, Australasian Council of Deans of Arts, Social Sciences and Humanities and Australian Research Council are convening a one-day workshop for potential HASS applicants for the forthcoming ARC Centres of Excellence rounds.

The workshop will feature presentations and roundtable sessions with the ARC and Centre Directors, who will share insights on the application and assessment process, advice on developing bids and strategies for success.

We would like to invite researchers and research teams applying in the 2018 round and those preparing for 2023 to attend. The workshop is also open to institutional representatives with a remit to support research funding bids, including Deputy Vice-Chancellors, Deans and research office staff.
